Community Benefit Fund

The Community Benefit Fund (CBF) was established to provide funding support for gambling-related research and amelioration programs concerned with problem gambling, as well as community benefit grants which provide assistance for general community development and improvement purposes.

Section 68A of the *Gaming Control Act 1993* (the Act), provides that:

- (1) The Director of Gaming Control (the Director) must maintain in the Agency's Operating Account a fund to be known as the CBF;
- (2) Money in the CBF is to be applied for the following purposes:
 - (a) research into gambling activity, including the social and economic impact of gambling on individuals, families and the community;
 - (b) promotion of community awareness and education in respect of problem gambling and provision of counselling, rehabilitation and support services for problem gamblers and their families in the Territory;
 - (c) funding of grants for community projects and services of benefit to communities throughout the Territory; and
 - (d) management and administrative support of the Fund.

The CBF receives a 10% levy on player loss from electronic gaming machines in casinos and licensed hotels, unclaimed prizes paid to the Director and proceeds from items forfeited under the Act. Each year the responsible Minister determines how this money will be distributed by the fund within the four categories listed above.

Administrative responsibility

The Act provides that the Director has responsibility to maintain the CBF. The Director's administrative duties in relation to the Fund can be broadly summarised as:

- maintaining the CBF in the agency operating account
- determining the revenue of the CBF through assessing gaming machine levy
- monitoring and reporting on club community contributions
- providing recommendations for Gambling Research, Gambling Amelioration and Minor Grants.

Licensing NT, a division within the Department of Tourism and Hospitality, is responsible for the coordination, management and administration of the program. This includes secretariat and executive support to the Community Benefit Committee (the Committee) as well as promoting the CBF within the wider community.

The secretariat is also responsible for the management of amelioration support and research activities, overall fund administration and general reporting of the program activities and progress to Government and other stakeholders.

Committee membership and meetings

The Committee is comprised of community representatives tasked with providing the Minister recommendations from all major category grant applications.

Community members of the Committee are appointed in an honorary capacity by the Minister. Nominal fees for attending Committee activities may be paid at the discretion of the Minister. Community members are also entitled to reimbursement for out of pocket expenses in meeting obligations arising from participation in Committee activities, consistent with normal government policy.

During 2024-25 the Committee consisted of:

The Committee met on two occasions during 2024-25.

Industry contribution to Community Benefit Fund

The gambling industry is a major contributor to the Northern Territory economy, with significant investment, employment and taxation revenue effects. It is also a key element in the broader recreational, hospitality and tourism sectors.

However, the industry carries the potential for significant negative social consequences as a direct result of problem gambling aspects, particularly in regard to the operation of electronic gaming machines. To establish a responsible and balanced position for the industry, Government requires this sector of the gambling industry to contribute to measures that address the adverse effects it creates and, more generally, to improve the broader community environment within which the machines operate.

The required industry contribution is achieved in two ways:

1. through the imposition of a CBF levy on electronic gaming machine player losses from casinos and licensed hotels
2. by direct support to community improvement and development by licensed clubs operating electronic gaming machines.

Community Benefit Fund Levy – casinos and licensed hotels

The CBF is established under the Act to consolidate and manage the CBF levy collected from the operation of electronic gaming machines in Casinos and licensed hotels. Funding is directed to specific areas of activity as specified in the legislation.

Community support contributions – licensed clubs

As part of the arrangements for allowing gaming machines in community venues, clubs are required to make contributions to the local community and report those contributions on a regular basis. Guidelines exist to clarify what can be legitimately reported as a contribution.

Section 68B(1)(b) of the Act requires the Director to monitor the contribution made to the community by clubs that are licensed.

In 2024-25, community support contributions from licensed clubs totalled \$5.8 million, equating to 13% of net gaming machine revenue received. This is similar to the 2023-24 community support contributions, which was also 13% of the net gaming machine revenue received, totalling \$5.6 million. (Table 9 refers)

Gambling Amelioration Grants

The Gambling Amelioration Grants Program was established to support interventions that reduce problem gambling and minimise the harms that result from gambling. Interventions can range from community awareness and education programs through to the provision of counselling, rehabilitation or support services for problem gamblers and their families. Gambling Amelioration and Research grants also promote knowledge and information among the key stakeholders on gambling harms and preventative strategies.

In 2024-25 ten gambling amelioration grants were funded a total of \$3 632 528 to provide gambling amelioration services:
